Correction to: Genetic diversity of arsenic accumulation in rice and QTL analysis of methylated arsenic in rice grains

Masato Kuramata^{1†}, Tadashi Abe^{1†}, Akira Kawasaki¹, Kaworu Ebana², Taeko Shibaya³, Masahiro Yano³ and Satoru Ishikawa^{1*}

Correction

The authors of article “Genetic diversity of arsenic accumulation in rice and QTL analysis of methylated arsenic in rice grains” (Kuramata et al. 2013) would like to note that the original version of the article online unfortunately contains the following errors:

- 1) In Figure 2, “WRC13 (Tima)” should instead read “WRC13 (Asu)”.
- 2) In the ‘Results’ section, under the heading ‘QTL analysis for DMA concentrations of rice grains’ (PDF page 4, line 12 of the left column), the text “grain DMA concentrations (0.041-0.351 mg kg⁻¹)” should instead read “grain DMA concentrations (0.027–0.106 mg kg⁻¹)”.
- 3) In the ‘Discussion’ section (PDF page 7, lines 29-30 of the left column), the parentheses are not needed for “Zhang et al. 2008”.
- 4) Also in the ‘Discussion’ section (PDF page 7, line 9 of the right column), the parentheses are not needed for “Carey et al. 2010”.
